DETAILED ACTION

1. This is response to the Amendment filed on September 04, 2003. Claims 2-20, 31-40 and 42-52 are pending. Claims 2-20, 31-40 and 42-52 are subjected to restriction and election requirement.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 2-30 and 42-52 drawn to a touch sensitive device for scrolling documents on a display screen, classified in class 178, subclass 18.01.
 - II. Claims 31-40, drawn to a tactile feedback based interaction device for an operator interface, classified in class 345, subclass 702.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions of Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention, for example, the invention of Group I has separate utility such as the scrolling of a document does not utilize the feedback means to provide tactile feedback as recited in Group II. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and the search require for each Group is different shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2674

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
